Vasilinomania

I stood one shining morning where
Dark frowned the crags of Innisvair.
The sunlight's soft and tender ray
On grim Glenartney's summit lay;
And there, upon an ancient rock
That long had braved the tempest's shock.
I saw, inscribed in brilliant green,
The curious legend VASELINE!
And on the ground lay stretched and prone,
His head upon a mosey stone.
With ragged clothes and tangled hair,
And beard unkempt, and bosom bare.
A sleeping man, of stature rare,
With brush and pail beside him there.
With much surprise and some alarm
I spoke, and shook his brawny arm.
Then yawned his hairy visage wide,
And sleeping still the man replied:
"It cured me when I dying lay;
For it I travel night and day;"
"On foot around the world I've been
To sound the praise of VASELINE!"
"From Pole to Pole, through all between,
I've spread the name of VASELINE,
"On mountains high, in forest green,
I paint the name of VASELINE."
"I'd mount the mightly vault on high,
To grave it on the azure sky;"
"To cure all ills on earth I ween,
Heaven sent in mercy, VASELINE!"

POLITICS.

The new year has opened with many political changes which might have escaped the notice of the non-political public but for the trifling yet ugly new year's question about Natl. and Provincial stamps in the Provincial Bank. Even to the present this question has not been settled owing to both Govts. insisting on their respective stamps. All bills and checks have to bear National and Provincial stamps when going through the Provincial Bank, although at the other banks only the National stamp is required. Of course such an extra tax on commerce cannot long be supported, and as the Provincial Bank is in National territory, the Provincial tax must be waived. This stamp difficulty has extended from the Bank to the escribanos offices, and double stamps on legal documents increase the inconvenience.

Yesterday Governor Rocha sent a message to his chambers proposing that the Provincial Government at once move out and that a provisional Capital be without an hour's delay named. We understand Belgrano will be the Provisional Capital, and it is likely that when the capital of the province is once established there it will remain in Belgrano for many years.

From the first of the year all provincial jurisdiction in this city has ceased, which has made affairs so difficult for the Judges, escribanos lawyers &c. that in fact there are no provincial tribunals, and we should have all the escribanos' offices in town closed to-day but for President Roca's decree yesterday allowing the escribanos to continue with their 'escrituras' on condition thas they take their registros to the secretary of the Federal bourt to get the pages stamped.

The pressure in political circles yesterday was so great that some parties talked of the Wanklyn quinta being the new Provincial Government House, and the Flores Theatre the new Provincial Chambers. Although this question of a provincial capital has now been pending for close on a year and a-half without any definite decision being come to by the Executive or the Legislature, still few thought that matters would come to such a head in the first week of the New Year. All day yesterday there was much uncertainty as to the ultimate solution of this knotty question. Some urge that if the Provincial Government moves out, the Provincial Bank and Mortgage Bank will also move with it, which we regard as impossible, but politics in this country reach at times strange points, and it is by no means clear how this question will be settled.

The Education difficulty has at last been removed by the simplest of plans, the dismissal of all parties concerned, and the nomination of a new Board. We give the names of the new directors in another column, and let us hope that the new School Board will escape the charges which brought the late Board so unfavourably before the public.

All the new Justices of the Peace in the Capital, with their secretaries, have been named by the National Government, and the whole city is now under National jurisdiction; it is impossible therefore for the Provincial Government to remain any longer in town, and we suppose that this week it will move out.

"BETWEEN THE AMAZON AND THE ANDES."

Madame de Chatelet wrote geometry and disagreed with Leibnitz, but Mmes. de Stael, Pfeiffer, Sevigne and Sand wrote novels, tales, and travels, in which the reader at a glance detects the style, impressions and sentiments of the woman. Mrs. Marion Mulhall may be classified in the latter category of woman writers, as her work 'Between the Amazon and the Andes' is one of travels that remind one of the famous Ida Pfeiffer. From one cause or another a book written by a woman concentrates more attention and criticism than it written by a man, and the reading world in general, when it does applaud such a work, treasures same and liberally lavishes praise on the authoress, as has happened to George Sand, to Madame Dacier, and many others in modern days, not to mention the frenzied admiration of the old Greeks for Sappho and the gratitude of their descendants to Longinus for having preserved at least some fragments of her poems. At present many women write, but this literature is one of novels, intrigue and fiction, and we cannot too much admire the ambition of the authoress of the present work to produce something novel and instructive at the same time.

Travels, in Europe at least, are a very threadbare subject, and it requires much talent and a versatility like Lady Morgan's to attract the attention of the reading public. All can well imagine how the European public must be bored with continued 'Souvenirs de Voyages,' or completely done up with My Travels, or Meanderings in zig-zag; to such a public the present book about South America, Gauchos, Indians and Paraguayan women must be a boon and a treasure, and we do not wonder if our correspondent in London writes to us by the mail that it is the fashionable work of the season. The authoress has had the tact to make her descriptions lively and thoroughly womanly; everything viewed with the scrutinizing gaze of a woman; all the salient points are touched, and finished in such a manner linked together, that the reader passes from the strangest to the most commonplace situations in the most natural mood; it is a book you take up, draws your attention, and you wish to finish soon.

River Plate people are unable to appreciate the intrinsic originality of the work, for the very simple reason that they come in daily contact with all that is mentioned in the book. But to a public like that of London, to which every line is a novelty, the work must be a great attraction. The least interesting part is devoted to the civilized part of the River Plate, but we must acknowledge that the impressions of the authoress, in Rio Grande, Uruguay and Matto Grosso, are most agreeable and entertaining. One great feature of the authoress is that she does not fatigue one with too many of her considerations, reflections and ideas of the moment: she simply describes what she has seen, and all the situations are well defined and well drawn. The work, we consider, will hold its own in contemporary feminine literature. Its style resembles Madame Ida Pfeiffer's.

The style of the work is classical and reminds one very much of Julius Caesar's Commentaries; there is not a word 'de trop' in the descriptions, and the authoress, with consummate art, shews that she has no intention whatever to impress by diction or phraseology. Sentiment creeps in now and then unawares, as is very natural in all authoresses: For example, talking of the graves of some murdered countrymen, she says:—

Close to the spot where the 'rancho of the first settler, Berisso, was burned by Indians seventy years ago, is now a small 'Campo Santo,' surrounded by poplars and weeping-willows, where are buried some English settlers. The sighing of the trees and plaintive cry of the Teruteru, or turned plover, made me feel very sad, as I stood at the rusty gate and saw the moonbeams fall upon the silent graves of some of our countrymen in this far-off land."

The following beautiful poetry of the authoress will be read with pleasure; the ideas are as artistic as the metre. It was composed at the Inca's bridge:—

"I had no intention of publishing the following verses, which I wrote at the Inca's Bridge, until his Excellency Don Manuel Garcia, Argentine Minister in London, paid me the compliment to translate them into Spanish verse:—

VISION OF ATAHUALPA.

I.

Out from Cuzco's sacred city,
In the silence of the night,
Came forth bands of phantom warriors,
Like the misty moonbeam's light,
Rank on rank, till all the valley
With those spectral warriors shone,
For their lines of armour glitter'd,
Though their faces were of stone.

II.

And they pass'd before the sleeper
Who in Spanish dungeon lay
Wond'ring at the ghostly vision
And the martial, proud array;
Then the Incas, for long ages,
Down from Manco's royal line,
One by one, passed slowly by him,
But they gave not word or sign.

III.

Then the snow-capp'd Chimborazo
Rose before the sleeper's view,
And the spectral hosts ascended,
Like a cloud of morning dew.
Then a dozen white-robed prophets
Closed the pageant strange and dim,
Singing low, in accents mournful,
Atahualpa's funeral hymn.

IV.

"Last of kings, thy reign is ended,
And thy line of kingly sires
All extinct, in darkness shrouded,
Like Sorata's ancient fires.
But above, to fields Elysian,
In the regions of the sun,
Where the Incas reign in splendour,
Come!—thy earthly work in done."

The Argentine Minister has written a sequel to the above lines, which I give, with his permission, as well as my own translation of the same, although it is difficult to convey the beauty of the Spanish verse, in which Mr Garcia is so graceful and well-known a writer;—

EL SUPLICIO.

Al despertar, el Inca infortunado
Mira absorto una hoguera
Que el ciego fanatismo levantara
Ordenandole muera.
No sacio de los viles opresores
La sed devoradora,
El rescate del oro codiciado
Que sus ojos devoran.
Ni diezmar con temidos arcabuses
A una raza inocente,
Usurparle su tierra, leyes, trono
Y hasta el sol refulgente.
Mas, infelis! y aguarda que el futuro
En sus arcanos guarda
La venganza que America prepara
A una raza bastarda.
Que en torva noche la sumio insolente,
I se alzara iracundo
El Nestro de los Incas que proclama
La libertad de un Mundo.
Tardo imaginas de venganza el dia?
Bien pronto ensangrentadas
De Castilla seran por la discordia
Las jaurias rebeldias.
La profanada tierra Americana
Apagara indignada,
Con sangre de verdugos las hogueras
Al fanatismo alzadas.

THE EXECUTION.

I.

Like the footsep of an angel
Falls a ray of morning light
On the sleeping Atahualpa,
And dispels his vision bright.
Rises up the fatal Inca
Fearless, though he knows to-day
Manco's royal race ere sunset
Will have passed from earth away.

II.

Close beside his gloomy dungeon
See the fagots piled on high,
See, the stake now claims its victim;
Atahualpa's hour is nigh.
Vain the gold and silver ransom,
Vain a suppliant nation's tears,
Vain the cries of outraged honour
In the recreant Spaniard's ears.

III.

But the day will come, Pizarro!
To avenge thy deeds of crime,

or any other ingredient beyond Milk and Sugar. DELICIOUS FLAVOUR. Directions as simple as A B C. TRY IT.

Blood and fire thy name recording
In the foulest page of time.
And the strength of Spain shall wither,
And her star shall set in gloom,
Murky as the smoke-clouds wreathing
Over Atahualpa's tomb.

IV.

Ayacucho, name of magic!
Flash the patriot swords on high;
Spaniards! yield, and pray for mercy,
Or within this hour ye die.
See, the Sun-god of the Incas
Shines upon a world made free,
And the Spanish power's uprooted
From the Andes to the sea.

As regards the illustrations, they may be considered good, but the 2 maps of the book are simply splendid; the entire get up of the work is first class, and everybody who reads the book will do so with satisfaction, whether he glances over the vivid description of the Paraná or studies the history of the Misiones. It is superior in many ways to other works of this kind; the theatre of the author's travels is new to people in Europe, and the style is free from all those flowery and sentimental appendages some writers can never get rid of when they favor the public with their impressions.

Mr Jacobsen of the Calle Florida 242, has the work on sale, handsomely bound, and well printed.

TRIP TO RIO NEGRO.

BIEDMA.

The town of Biedma is of such modern date that perhaps few of our readers know anything about it yet it is a place of rising importance and in process of time will enjoy great trade population and comerce than Patagones which is exactly opposite to it on the north banks of the Rio Negro. In company with Mr. Davison and Mr. Kincaid we cooped over in the ferry from Patagones to Biedma the river here is about 3 squares wide and the boatman landed as in front of the town, the only approvet being through the Quinta of a Mr. Salomon, one of the Chubut Welsh Colonists who years ago left the colony and settled down here where he has by untering industry acquired good property and is an independantman. Following the path through the Helshmans Quinta for about 2 squares we at last reached the town which is laid out in square blocks pritty much the same as all chamich country towns with the exception of Patagones.

Having letters for Mr. Gras, the Secretary of the Government, we asked for the Government House and found there was none, Mr. Gras has a neat private house of his own, but as the examinations were going on we found him at the public schools, where we sat for about an hour listening to the examinations which he presided over. He very kindly invited us and our party to take some refreshment. There were about 70 boys in the school, all clean and well-dressed, and some of the boys, we were told, were of Indian parents. They all answered well and did great credit to their masters: the curate played the piano and the whole school sang 'Old Mortales.' It was pleasant, in such an out of the way place, to find that national education was so well attended to. Whatever may be the defects of our educational system in Buenos Aires, at least at Biedma the school, scholars and masters all looked up to the mark.

We left Mr Gras and the Government school to visit the Rev. Dr Humble, who is a missionary Protestant clergyman down there, and much and deservedly esteemed by all. His congregation hardly numbers 35, but being a physician by profession and moreover Municipal of the town, he is thrown in greater contact with the people than if he were only a clergyman. Everyone in Biedma speaks well of Dr Humble; he is a general favorite, attached to his house is a fine quinta, which stretchs down to the Rio Negro, lined with tall poplars. Mr Humble has service at his house every Sunday and his congregation rarely exceeds 25, made up of Germans, English, Danes, &c. When we left Dr Humble, we proceeded to the Plaza. The place is so new that the trees have not had time to grow,. There is a fine new church, and a very decent Italian fonda, besides a few shops. At one corner of the Plaza is a large store kept by a Basque, who is the owner of the estancia adjoining Lambaré, on the Rio Negro. Here we picked up all the news about the place; the people who own sheep on the South side of the Rio Negro were all shearing, and the price going for the very best wool, at Biedma, was only 35$ m|c. per ar. All the chacareros, shopkeepers and farmers living in Biedma and its environs complained bitterly of the National Government; an indignation meeting was to be held on the following Sunday, and a petition was being drawn up asking President Roca to name somebody else as Governor in place of Colonel Alvaro Barros, who is considered far too old a man for such a post. Some of the people said they would sell off and leave Biedma if the President did not accede to the wishes of the people in this respect. On all sides we heard nothing but complaint, and possibly if Governor Alvaro Barros knew the feeling of the people down there, he would send in his resignation before he returned to the place.

The country around Biedma is most fertile, and is settled on and stocked for fully 20 leagues up the river, the lands with frontage on the Rio Negro being superior to the finest sheep lands in the best partidos of Buenos Aires. In other hands, beyond doubt, this delightful country would become the 'Happy Valley' of the whole Republic. Everything that nature could do for the place, she has done. The sheepfarmer on the Rio Negro has wood, water, soft grass, delicious climate, no locusts. On the high lands that run back from the river he can feed his cattle and always have them fat, on the low lands near the river he has natural potreros which enable him to keep his flocks apart without shepherds. The scenery along the Rio Negro is something surpassingly fine, and the day is by no means far distant when those delightful lands, teeming with fertility, will become the most coveted spots in this splendid country. Sr. Gonzalez is now surveying all the lands down there for the Government, and the surveys on the north bank of the Rio Negro will soon be finished. We know of one party who holds 50 leagues on the north bank of the river, and this territory will be sold in Paris to a company that will people and settle every square, and will convert what is to-day but a howling wilderness into smiling prosperous colonies.

LONDON LETTER.

(From our Own Correspondent)

A "CAUSE CELEBRE."

December 10th.

The cause of libel, Scott *v.* Sampson, will, in many respects, be memorable. Mr. Clement Scott is the well-known dramatic critic of the *Daily Telegraph* and other papers, and is also the editor and proprietor of the magazine called *The Theatre*. Mr. Sampson is the proprietor, or put forward as such, of the sporting journal, *The Referee*, which some people read, or have read, as it was made celebrated some time ago by the truly humourous contributions of Mr. George Sims, the author of 'London Ballads' and other specimens of light Cockney literature. Mr. Sims is also the author of one of the most going plays of the hour, 'The Lights of London.'

The libel complained of occurred in *The Referee*, in which a vicious article appeared, accusing Mr. Clement Scott of using his position as critic of the *Daily Telegraph* to puff his own paper, *The Theatre*, in which were published the portraits of actresses who paid for their own pictures as an advertisement. Moreover, Mr. Clement Scott was accused generally of levying blackmail on artists and actors, and more particularly of having visited Admiral Carr Glyn, after the death of the celebrated actress, Miss Neilson, of whom the Admiral was one of the trustees, and intimating that he knew a great deal too much about Miss Neilson, and that subsequent to the interview Admiral Carr Glyn, 'for the love of art and 5 per cent.,' invested £500 in Mr. Clement Scott's magazine, *The Theatre*. The facts were denied, and in the trial no evidence was produced by the defendant Sampson to prove the truth of the allegations, and consequently Lord Chief Justice Coleridge charged the jury pretty stifly with virtuous indignation, roused by the enormities of a ribald press, and they brought in a verdict for the plaintiff—£1,500 damages.

Many people, equally scandalised at the accusations against Mr. Scott, think the damages ought to have been £15,000. Others are quite content that under the circumstances Mr. Scott got any damages at all; and there is a possibility that the defendant will move for a new trial and we shall have more particulars. It seems certainly curious to outsiders that neither Mr. Clement Scott nor Admiral Carr Glyn appeared in the witness-box. Every one knows that the relations between Miss Neilson and the Admiral were intimate, but of course no one knows the precise relations that existed. Then, it does not appear to have been denied at the trial that Admiral Glyn did invest £500 in Mr. Clement Scott's magazine, and nobody can understand why he did so, for neither the love of art nor the 5 per cent. is acceptable as a valid reason in itself.

The trial was also celebrated for an unfortunate exhibition of spleen in the leading counsel for the prosecution, and for an unwarrantable assertion by the counsel for the defence, Mr. Willis, that Mr. Russell, the leader on the other side, had 'misrepresented the facts of the case.' It is necessary to hear and see these things in court to understand them, because the evident breach of etiquett on the part of Mr. Willis is not intelligible from the mere quotation of what he asserted, since it is not unusual for leaders on either side of a law case to 'misrepresent facts.' However on Mr. Willis calling him 'his learned friend,' Mr. Russell requested that he would again call him 'his learned friend,' at which poor Mr. Willis, slightly taken aback, promised not to repeat the phrase, which he immediately did, by the bye, and caused so much laughter that the Chief threatened to clear the court, but he added pathetically, 'I shall ever remember this interruption.'

Even the mere reading of this episode is not sufficient. It is necessary to know that Mr. Russell is, without exception, the most able leader at the English bar, and is altogether 'un monsieur distingué' and a great bully. Mr. Willis is one of the cleverest men at the bar, and stands at the head of the second-class leaders. He is the son of a respectable man, a barber, and has worked his way up by sheer ability to his present high position: he is, however, a little snubbed by fine gentlemen at the bar who envy him his ability and his briefs.

EDITOR'S TABLE.

"Heaven's dread artillery" fired a volley yesterday morning, about 11 a.m. that made everybody in town jump and knocked the bottom out of the water tub on high. The rain came down furiously for a short time continued for a few hours drowned all the mosquitoes and freshened the atmosphere. Jove hurled a thunderbolt that struck in Calle Temple, passed between the boots of two women, without injuring them, and vanished down the nearest sumpt. Farmers all predict a severe drought in the winter after all this summer rain.

The Lottery Philistines at Montevideo, Rosario, Uruguay, Santa Fe and San Luis rejoice exceedingly that Congress turned its back on the new Municipal Law for another year, perhaps two. Buenos Aires is now in their hands some time longer for shearing purposes. All the brand new lottery apparatus which the Lord Mayor ordered, is useless.

Governments in distress for want of suitable furnished lodgings have evidently a weakness for balmy Belgrano. The rumour ran yesterday that, while Tolosa is being put in order, the Provincial Government will go to Belgrano. This means another present of a clock or something else to the Municipality when the time to say 'adios'arrives. Lucky Belgrano.

The Minister of Education has at last cut the Gordian knot of the famous Education rumpus. The Superintendent's resignation has been accepted, and the Consejeros have all been 'mis à la porte,' with an ironical 'gracias' for their 'valuable services.' It would be more satisfactory if the decree had included a clause ordering an inquiry into the very serious charges made by the Superintendent against the Councillors during their famous battle. The new Consejeros 'ad interim' are Drs. Zorilla (President), Goyena and Lamarca, and Messrs. Sastre and Fourcade, all excellent men. Who is to be the new Superintendent is not known.

The latest novelty in the market is Balmain's Luminous Paint, for which Messrs. Lachore and Sampson are the agents here. This wonderful composition has the property of abolishing sunlight, 'bottling it up' as it were in the daytime, to return it in the night. It differs from all phosphorous compounds which shine by the consumption of their ingredients, and consequently soon lose their luminous properties, but this paint is of itself non-luminous and merely absorbent of light, consequently, so long as it is exposed to the sun its luminosity is daily refreshed. Its duration is about the same as ordinary paint Many uses for this composition will at once suggest themselves to our readers. Amongst the most important is the painting of buoys in harbours, life buoys, railings of moles, &c. making these articles visible on the darkest nights for a distance of 200 yards off. For these objects it has been offered to our harbour authorities, who have it now under consideration. If the ceiling of a room be whitewashed with the paint in water form, a beautiful soft light like moonlight will fill the chamber during the night. Finger posts on country roads, names of streets numbers on houses, advertisments, signboards, all become visible and even compel attention from nocturnal passers by. Its application to clock faces is already pretty well known from its extensive use. There are a variety of small articles about the house which can be rendered luminous with great utility, such as match safes, candle sticks &c. and a small ring of this point round the key-hole of the street door would be of material assistance to young men coming home from 'small and early parties.' The ladies will find in this paint a new resource for decorative fancy work, such as painting crucifixes, photograph frames' plaster casts, fretwork baskets &c. One of the prettiest applications of it is to photographs, which on being stuck on glass, rendered transparent by a coating of Canada balsam and then painted on the back with luminous paint, become visible in all their details in the darkest room. Messrs L. & S. will be very glad to shew specimens and give more details at their office Maipu 149.

Owing to the miserable weather yesterday, there was little or nothing doing in the new subscriber line. We only registered two, and these by letter.

There was an incident on the departure of the French steamer Orenoque on Sunday. A Judge's order was sent on board to stop a passenger whose creditors wanted to wish him good bye, as he had forgotten to leave a P.P.C. card on them, The captain said he was very sorry, but as the Judge's order was not countersigned by the French Consul he could n't even think of acting on it or allowing the messengers on board. The latter stormed, but the Captain gave the order "turn ahead" and left them in the Roads. Diplomatic ink will probably be shed about this affair.

President Roca has addressed a very graceful letter of thanks to Dr Pacheco, Chairman of the Committee of Merchants that presented H. E. with a handsome offering in recognition of the settlement of the Chilian Question. General Osborne's letter is also most appropriate, but he cannot accept the present without consent from Washington.

There were 1000 people at the American Church pic-nic at Villa Colon, Montevideo, on the 6th. The children ran races all day and received some beautiful prizes. The lunch was a square meal of the most recherche kind.

Dr Luis Los Llanos, and Messrs F Crowther, M Victorica, John Lopez, and L Basualdo, have been named as a Committee to arrange about the Water Works for the Village of the Plaia—sweet Flores.

Holders of Cedulas may like to keep a copy of the new Mortgage Bank Law which is of such great importance for that establishment. It is in our supplement to-day. Also some interesting Cricket intelligence.

The Rev. James Smith will preach next Sunday at noon, at the Cabaña, Canuelas district.

The rain yesterday made all the ladies who have ordered green toilettes for the great Archery Fete at Flores to-morrow rather nervous, but we have every hope that the Clerk of the Weather cannot be such an unutterably utter bear as to spoil sport got up by ladies, and that he will smile his best on the fun. The preparations are complete, and the novelty of the thing will certainly attract crowds of our High Life.

The high gunpowder tea sold at the Bazaar Ingles in Calle Florida at a low price is some of the best value for money in town. The Czar drinks this tea: It's the only beverage that cheers him after a Nihilist attempt to blow him to Hong Kong or Hades.

The Provincial Government has settled a point that has much exercised 'estancieros' since New Year's Day, viz, on what part of a cow's leg the brand must be made under the new Law. The Government says that the whole leg is available for the purpose.

Another bit of news going yesterday is that the Minister of Education will listen to no more petitions from Governors of Provinces for subventions from the National Purse for primary education in the provinces. After recent revelations, the bare mention of school subsidies gives one a cramp in the pocket.

Jan. 10th

Cedulas A	100½
Do E.....	88
National Bank Shares..	126

The rain to-day greatly interfered with business; at 1 o'clock the ring was stopped, as there was no business doing. The topic of the day was the difficulty between the National and Provincial Governments, concerning the stamps. It was rumoured that Dr Rocha would immediately submit to the Legislature a proposal to establish the Capital provisionally at Belgrano. Some brokers said that the Wanklyn quinta on the Flores Road would make a capital Government House, or Palace of Justice for the Provincial Tribunals. The question between both Governments is entering into a serious phase, and it is to be hoped that sound common sense will prevail in the Provincial Government House. If matters get annoying, very serious consequences may result; but happily Dr Rocha is in power and he knows how to meet the emergency; the former local and narrow-minded prejudices must make room for general interests. Some parties thought on 'Change that the stamp difficulty would lead to the removal of the Provincial Bank, and there is no doubt that the Provincial Legislature of B. Aires has perfect control in this matter, both as regards the Provincial, Mortgage, Western Railway, and Pawn Offices. But the question will never reach that pitch.

Business in Cedulas was insignificant. Some 40,000 pats sold. Series A is growing firmer every day and cash transactions were effected to-day at 101¼. Series E is at 88 and promises to go up to 90, where it will remain fixed for some time in all probability. Some business was done in Series A for to-morrow at 101½.

In National Bank Shares there is no market; both buyers and sellers, bulls and bears are at a complete stand-still. The prospects of the Bank during the current year were discussed, and many foreshadowed very important operations, owing to the growing difficulties between the National and Provincial Governments. The market was very dull and rates remained pretty much the same as yesterday. All anticipate very dull times between this and the end of the month. The cash operations are insignificant and were done at 125¾ and 126. For end of month over 1,000 shares were sold at 126¾ and 127½; the market closed at 126¾.

The great business of the day was the amortization at the Public Credit Office. The bids presented were:—

The R.M.S. Humber has engaged a full cargo, and will leave on 20th instant.

Some 10,000 Cedulas, Series A, were sold today for end of month at 1 o/o premium. This sale was not put up on the black board.

The sheepskin market is firm and business is active owing to many purchases for South of France.

We call attention to Mr. Blanch's notices in another column of several steamers for sale; all these steamers are at present working and earning money, and it is rarely we see so many first class small steamers offering for sale. We have no doubt they will all sell well.

Messrs Schwartz & Co are now constructing 3 immense iron safes for the Mint; they will be ready in a few months; they are the largest of the kind. Formerly such safes had to be imported, now they are made here. The cost of the three safes is 7,000 pats. Schwartz's yard is the busie t in the country.

The sale of 2,000 head of horned cattle at the Tres Arroyos at 200 m/o "al corte" is reported; this is about the cheapest sale we have heard of, as the young calves did not count. Two other sales of "rodeos" are reported in the South, but at higher prices, 220 and 230 m/c.

Parties who have arrived in from the Western camp state that the rain now is most injurious to the lino crop, and much of it in this Province they fear will be lost.

"Societe Immobliere Argentine" is the title of the new Argentine Estancia Company formed in Belgium but with legal residence in B. Aires; capital 2 millions francs, in 4000 shares of 500 francs each. The first series of 1,000 shares issued has been all sub cribed for M Maurice Donckier de Donceel, is the manager, and M. Marcel de Kemmeter, majordomo Mr. Donckier conveys to the Company the land he bought from Mr. Casey in March 1881, and the Company takes over same at the price paid and give M Donckier 50 shares as bonus; a board of 5 directors is to manage the affairs of the Company, and a general meeting of shareholders is to be held every year on the first Tuesday of Sept at Brussels.

We salute the new Company and wish it the best success. We want more such Companies in the Plate.

At afterhours little was done, some National Bank Shares were sold for end of month at 127. Some 10,000 pats were sold in the afternoon at 25.02½.

Gas shares are in demand at 1,860.

Discounts are easy, rates the same as usual.

Leibnitz and Herschell leave to-morrow full between this port and Montevideo.

The San Giovanni has been chartered to load bales for Antwerp at 16s and full.

20,000 Cedulas series A were sold at afterhours for end of month at 102.

Some business was done in the Once: the Germans buy up what they call the 'high life' wools. The arrivals are small and the barracas are filled with bales, and no carts to take them away.

The Colina and Delambre have arrived in Montevideo

The Mortgage Bank balance-sheet was out to-day, and will be found lower down.

At the meeting of the shareholders of the Estrella Insurance Company to-day, it was decided to pay a dividend of 10 o/o. carrying as much to the reserve found; the situation of the Company is most favorable as can be gleaned from the results. The Estrella is a fire and maritime Insurance Company.

The San Martin left to-day very full.

Freights continue active, and plenty of produce offering.

The Committee of foreign exhibits met yesterday under presidency of Don Rufino Varela. The sites were determined for placing the machines in the Exhibition. It will be a treat next February to see all these machines working, but it is hardly probable that everything will be ready for the 15th proximo. A meeting of South American commissioners will take place this week, in order to settle the 'locale' of the different Republics. The building is after all most ridiculously small; 14 Argentine Provinces, 3 Argentine Territories, 10 South American States, and foreign machinery into the bargain, must all be squeezed into the small building.

The Brazilian barque Leao has been chartered to load in the Uruguay 5,000 qq. meat for Brazil at 4½, 5½ and 6 rls. fts. and 5 o/o.

The following clearances are reported in Montevideo:—

Ital. barque I Tre Giuseppe for New York with 36,284 dry cow hides.

Span. polacra Antonia Llasat for Brazil with 1,515 saks maize, 500 sacks flour, 688 hectolitres salt and 8,220 kilos tasajo.

Through the printer's mistake we stated yesterday that "100,000 hides were offering, cargoes from the rivers". There are 6 Entre Rios cargoes, and 4 more from the rivers, making a total of 100,000 hides offering at 49 rls.

The Minister of the Interior has handed to the Municipality on account $20,000 for the pavement of the Calle Rivadavia.

On the 16th, 17th and 18th inst. the Pawn Office auctions come off; bargains can be had.

The Maria di Monte Alegre has been chartered to load tallow in Guaiaguay at 30 francs for Cette.

The Rita has cleared for Paysandu with 113,000 hectolitres of common salt.

In Montevideo 35,000 of greenbacks were destroyed during December; the amount in paper is equal to $15,000 in gold.

It is stated that the Provincial Government loses by the new National stamp jurisdiction in this city 1,000 pats per diem. This stamp tax yield enormous profits to both Governments, and the stamp returns in the Provincial Budgets of late years figured for over 22 millions m/c. The Provincial Government now loses at least ⅔ of this amount per annum.

We notice that Mr. Alexander Stewart, of Barracas, is receiving large consignments of flandubay posts from Entre Rios; doubtless he will meet with warm support from his countryman in the camp.

There is evidently a move to open up Misiones and establish permanent communications with the river towns. Yesterday we published the news of the new telegraph line to the Salto Grande; to-day we hear that a steam line will be started between Garruchos and Santo Tome. Private enterprise is doing more for that territory than the Government; landowners see a guarantee of security of life and property in the federalization of the place—the "El Dorado" of the Republic.

The want of National escribanos is giving rise to many complaints; application to the provincial escribanos we suppose means adonde stamps, and as stamps in these cases are rather onerous, the nuisance of paying double is felt the more. This double stamp question is bringing matters to a head, and a political crisis may be the upshot. At all events the National Government is determined that with in the jurisdiction of this city everything hencef rward shall be National. The disagreeable questions that now rise to the surface may only be the forerunners of many more important ones.

It is reported that Dr. Uriburu, the Provincial Finance Minister, is already setting aside funds to meet the obligations of the 10,000,000 pats loan; the interest on same is 6 o/o Although the Government only disposes of 5,000,000 pats of same, the full obligations of the loan will be entered in the Treasury Books; the Provincial Government is at present in an enviable position, being very flush of money, owing to the closing payments of the year and the new loan.

Telegrams from Europe announce the sailing of the new Chargeurs Reunis steamer Ville de Rosario from Southampton, with cargo of railway materials for the extension of the Andine and Central Northern Railways. Locomotives for the Andine Railway are expected to arrive soon; the Central Northern line is also very much in want of engines; we believe that there are only five serviceable engines on that trunk line.

Governor Rocha has moved another step in the right direction; a decree has been issued naming a Committee of gentlemen to carry out the proposed Aguas Corrientes in the Village of the Plain; the neighbors will be glad to hear that the Committee in question is composed of the following gentlemen:—Ruiz de los Llanos, President, M Victorica, T Lopez, F Crowther, and L O Basualdo.

A las 3 p.m.

Remataremos a la mas alta postura y dinero de contado pasando la base arriba indicada por orden terminante de sus propietarios y por liquidacion de sociedad estos magnificos campos situados en el Partido de Bahia Blanca, y que podemos reputar sin exajeracion alguna los mejores, en cuanto a pastos y aguadas permanentes de aquella localidad ; campos poblados hace mas de 21 años.

Los Manantiales—(Plano A)

LOTE No. 1—Una suerte de estancia o sean ½ legua con frente al Naposta Grande arroyo de agua cristalina, permanente y dulce ; linda por el N. Este con D. Sisto Laspiur, por el Sud, Oeste y Nor Oeste con Jorge Claraz ; tiene una poblacion construida de piedra y barro con techo de fierro de 4 reales por vara cocina con techo de paja y un corral de piedra para ovejas, grande y bien situado.

LOTE No. 2—Se compone de 4½ leguas mas o menos sobre el Naposta y linda por el N. O. con los Srs C Heusser Arce y Chautini ; por el N. Este con el lote num. 3, y por el S. Oeste con Cuquet, Bajo Hondo y el Estado. Tiene en el Centro del campo, la Laguna de Manantiales y el arroyito del mismo nombre : las poblaciones son : sobre el Naposta grande uno de dos piezas de material y un pequeño galpon de lo mismo ; otro de dos piezas, uno de adobe crudo y la otra de piedra con un gran corral de piedra para ovejas.

La poblacion de los Manantiales se compone de tres grandes piezas de material de adobe crudo con techo de tabla y fierro ; a mas dos puestos construidos con los mismos materiales que estos ultimos.

LOTE No. 3°—Lindero con el anterior y se compone de 3 leguas aproximadamente con frente tambien al Naposta y fondo hasta el Bajo Hondo; tiene tambien una laguna 'Los Salados', una poblacion sobre el arroyo de una pieza de piedra como las anteriores y dos poblaciones de adobe crudo con techo de fierro

El total de estos campos, conocidos por los Manantiales dista dos leguas y diez cuadras desde el Equinero Oeste a la plaza del pueblo de Bahia Blanca y su superficie total segun la reciente mensura practicada por el agrimensor D. Federico Gomez Molina, se compone de 8 leguas cuad. mas 538 cua. cs.

La calidad de la tierra es en todas partes vegetal, arenosa. hasta una profundidad que varia entre media y tres cuartas vs. pero se nota de una manera bien clara la fecundidad de ella, en los parages donde ha sido removida ha brotado subitamente y en abundancia el trevol de carretilla y el alfilerillo, ambos pastos tiernos y dulces.

Aguadas—Tiene el Naposta Grande, las Lagunas, Los Manantiales y Saladas y el arroyito Los Manantiales.

Ademas, se encuentra el agua a diversa profundidad en este campo a consecuencia de los accidentes del terreno y que varia desde 1 hasta 13 metros de profundidad.

Pastos—Los pastos son mezclados, encontrandose el alfilerillo, trevol de carretilla, cola de zorro, pasto duro, flechilla, vinagrillo, té pampa, cebadilla y macadieu, predominando en un 80 c/o el trevol, alfilerillo, pasto duro y cola de zorro.

Este campo es apropiado para hacienda lanar y vacuna, indistintamente, la cual se encuentra en tal estado de gordura que se necesita trabajo encontrar animales que sirvan para el consumo.

Nueva Roma—(Plano B)

Se compone esta fraccion de tres y tres cuartas leguas cuadradas sobre el arroyo Sauce Chico y sus linderos son por el N E Juan y Eduardo Vidal y Francisco Ceico, por el S E. Francisco D Bozzaur, por el N O los mismos Juan y S Vidal y por el S.O. el Sauce Chico, dista este campo del Equinero Este 4½ leguas de la plaza principal del pueblo Bahia Blanca.

PASTOS—Estos son en general cola de zoro pastos duro y carretilla, existiendo unicamente en sus bajos y muy principalmente en los comprendidos por el arroyo Sauce Chico y Saladillo, Lazaga y Garcia, con gran abundancia el trevol de olor, alfilerillo, mostaza y te pampa. Este terreno es apropiado por su mayor extension a la cria del ganado vacuno.

Calidad de la tierra : es semejante a la de los Manantiales y se nota tambien claramente la fecundidad de la

AGUADAS—Tiene el Sauce Chico arroyito permanente de agua dulce y cristalina, tiene ademas dos Saladillos o arroyitos.

Los verticules, debido a lo accidentado del terreno, se encuentran desde los 40 centimetros hasta los 11 metros de profundidad.

La venta de esta fraccion se hara de la manera siguiente—

Lote No. 4—Compuesto de una y media legua cuadrada.

Lote No. 5—Una suerte de estancia o sean tres cuartas leguas con opcion a los Lotes No. 6, y 7, cada lote de ½ leguas.

Creemos de nuestro deber llamar la atencion de los estancieros sobre estos magnificos campos que como ve por los informes del agrimensor son de primera calidad.

Su situacion no puede ser mejor, distan apenas 2½ leguas del Puerto de Bahia Blanca, destinado a ser el mas importante en toda la costa Sud, de donde podran embarcarse directamente todos nuestros productos de la vasta campana Sud de lo Provincia.

El flete dado alli al riachuelo vale unicamente $3 por arb. de lana y enfardilada la mitad.

Ademas es publico y notorio, la prolongacion del ferro carril del Sud desde el Azul a este punto, asi que puede decirse con seguridad, que estos campos en pocos anos valdran de $600 a 800,000 la legua.

Por planos e informes impresos, ocurran a nuestra casa Alsida 78, desde el 20 del corr, en adelante.

The above match was played on the 6th inst. at Belgrano, and after an interesting game resulted in a victory for the Juniors by 8 runs.

The batting of Smith and Beardshaw for their side was very creditable and for the Z. C. C., H Stockdale, as usual, did well all round. Owing to the lateness of the hour only one innings was played, the respective scores being as follows—

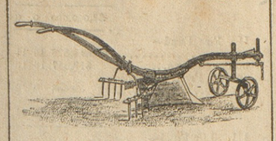
HOWARD'S CELEBRATED PLOUGHS

Howard's
Small Ridging Plough

A small useful iron plough, fitted with a double mould board or earthing up body, and much used by maize and vegetable growers.

Weight ¾ cwt.

Howard's
Water-Furrow Plough



This is a modification of J. & F. Howard's Ridging Plough. It is used for making the water furrows for surface drainage on arable land; the peculiarity of its working is that the earth thrown up on each side of the furrow by the mould boards, is moved away from the edges of the furrow and is harrowed down level with the field, a level surface is thus left for the Reaping Machine, and drainage is facilitated.

With steel breasts, weight 1¼ cwt.

Howard's
Potato Ploughs.

With a pair of horses, this implement will raise three to four acres of potatoes in a day; it leaves fewer in the ground than hand digging, and the roots are raised with less bruising or scratching of the skins than by any other method. These Ploughs have stood the test of many years experience, and the demand grows larger annually,

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 6th 1880.—To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London "Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, Dr. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleraic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

CAUTION—None genuine without the words 'Dr J Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

AS SURE AS EGGS ARE EGGS.—An American Editor declares that 'out West' eggs are fetching two-pence each, and that the hens do not care about business even at this price. We fancy this must be very far 'West,' or surely our American cousins would ere this have resorted to the use of 'Borwick's Gold Medal Custard Powder,' which renders the housewife perfectly independent of the domestic fowl, since it produces the most delicious custards, blanc-manges, &c, at half the usual cost, and in much less time. The hens had better be 'cautious about 'striking,' or some enterprising storekeeper will introduce this household boon, and ruin their trade for ever. There is no special 'laying season' for 'Borwick's Custard Powder,'—one can keep it always on hand in the neat little packets and tins in which it is sold. Can be had of all Storekeepers in the Colonies.—*Civilian.*
